

The Leibniz ScienceCampus »Eastern Europe – Global Area« (EEGA) is committed to developing new research perspectives on Eastern Europe, engaging in knowledge exchange activities on the region with stakeholders, and promoting young researchers. It follows the idea that the multi-disciplinary and multi-faceted examination of processes of globalisation are a key for a better understanding of societal developments. The focus is on Eastern Europe's diverse, tension-filled, and sometimes paradoxical globalisation projects »from within« and »from the outside«, and thus, on the self-positioning of Eastern European societies under the global condition.

EEGA brings together interdisciplinary knowledge and expertise from researchers affiliated with universities and research institutes in Leipzig, Jena and Halle. Together with partners from the region, EEGA explores the fields of migration and mobilities, business strategies and political economies, cultural and intellectual perspectives and identities, and political integration in a changing global arena. Overcoming prejudices and clichés, some of which are rooted in the era of the Cold War, and promoting an informed understanding of Eastern Europe in its diverse traditions and positions, developments and internal dynamics are the primary mission.
